

# ALLIANCE FOR CLIMATE EDUCATION

November 20, 2015

The President  
The White House  
1600 Pennsylvania Avenue, NW  
Washington, DC 20500

Dear President Barack Obama,

As young people across the country who are concerned about climate change, we want to thank you for taking bold action and rejecting the Keystone XL oil pipeline. We are inspired by your leadership.

Our generation has the most to lose from climate change and the most to gain by fighting it. We want the United States to be a global leader in solving this problem, which means investing in clean energy, not more dirty fossil fuels. Rejecting Keystone XL is a big step forward.

Thank you for standing up for our future.

Sincerely,

*458 young people across the country:*
